By reason of the increased frequency of errors on the part of patrons to my sales, I feel the necessity of calling the attention of those sending bids, to carefully read the instructions on title-leaf. Revise your lot numbers carefully, and the price as well, to be sure you are making the offer you desire and against the particular lot wanted. Do not make a lump sum offer for a lot, — they are always sold entire, — but the bid must be by the piece, excepting in the case of U. S. Proof Sets. There are no other exceptions unless definitely so stated in the catalogue.

Make no corrections or alterations of figures, draw your pen through all errors and make a new entry. Do not use a lead pencil, such marks become indistinct by handling. Avoid making small figures.

TO BID UNDERSTANDINGLY, THIS MUST BE READ CAREFULLY

Coins and medals are sold at so much per piece, U. S. proof sets excepted. You cannot bid for *one piece* in a lot. If a lot contains ten pieces, and you desire to offer \$2 for it, make your bid 20c. The auctioneer will accept an advance of 1 cent up to 50c., then 5c. up to \$2.50, when 10c. is the limit, up to \$10, and thereafter not less than 25c. Hence any bid up to 50c. can be entertained, but after that the bid must be 55c., 60c., and so on. Such offers as 53c., \$1.01, and all intermediate figures are unavailable.

My terms for buying are 10%, and I make no charge less than 25 cents.

 Auction Sales are strictly for cash. Parties unknown to me must send a deposit covering at least 25% of their bids, otherwise they will not be accepted.

SOMETHING ABOUT MY BUSINESS THAT MAY BE OF INTEREST TO YOU.

During the year just closed, I held eleven Auction Sales, and they occurred in each month excepting August. This exceeds all records; it is indicative of increased interest in the science, and the growing popularity of this particular method of buying and selling. Do not confound these Public Sales with the so-called "Mail Auction." The total cost to annual subscribers for my priced catalogues for the year 1902 was \$3.96. I submit, there can be no outlay by the collector which will yield to him such satisfactory and valuable returns; through this series of priced catalogues as a medium, he may learn the worth of what he possesses, and be better able to make successful offers for what is wanting in his special line; in other words, it will place him in a position to "keep up with the crowd."

LYMAN H. LOW.

A CATALOGUE of this sale, with prices realized, marked in red ink, will be mailed for 40c., prepaid — cash with order.

A study of the prices at which coins and medals are selling cannot fail to make bidding more satisfactory. The cost is but a trifle, and a knowledge is thus rapidly acquired by comparison of the different sales, enabling the bidder to make offers which will enhance his chance of obtaining what is desired.
